Mykonos Casino champs ready to compete in Gold Reef City

Following an adrenalin-pumping Unit Semi-final and Final of the fourth annual Roulette Masters Tournament on Saturday, 11 March, Mykonos Casino has named its champions. Hongwei Qu has clinched the title of highest scorer, whilst Yan Zhong Qu is the Unit Final Winner.

The two will now be flown to Gold Reef City Casino to vie for victory in the Group Semi-finals on Saturday, 25 March 2017. They will be going up against 40 other finalists from all 14 participating casinos for a spot in the Grand Finale taking place on the same day. Up for grabs is the R2.5 million cash grand prize.

“The record-breaking increase in the prize money lends an unexpected twist to the Tournament and adds fire to the already fierce competition,” says Mykonos Casino Marketing Manager, Natasha Brand.

Between 9 January and 9 March, over 2 000 Mykonos Casino visitors took part in the qualifying rounds of the Tournament for a shot at the prizes, but only the top 20 players made it through to the nail-biting Semi-finals. The six who succeeded in this round went on to the Unit Final, the nerve-racking suspense of which lasted until the very end of the Tournament. The day’s excitement was heightened with entertainment supplied by Afrodizzy Acts and Club Mykonos’ very own Club Onos.

“We are rooting for Hongwei and Yan Zhong and wish them the best of luck as they represent Mykonos at the Semi-finals and Grand Finale,” concludes Brand.
